Please be advised that the SLO County EMSA has made available on our website the 2007 ALS Field Manual, which contains the 2007 ALS Treatment Protocols, Drug Formulary, WMD Guidelines, and Pandemic Flu Guide ([www.sloemsa.org](http://www.sloemsa.org) , under the Policies & Procedures tab).

Paramedics will also receive their own pocket-sized Field Manual when they attend the Protocol Review class and pass the post-class test. Check with your FTO to sign up for upcoming classes.

Please continue to refer to the protocols posted on our website for the most current version as revisions to some protocols have and will occur after the Field Manuals were printed.

Although the 2007 ALS Treatment Protocols are currently available through our website, the **new protocols may not be practiced in the field until September 1<sup>st</sup>.**
